

# CONVERT YOUR NURSERY **SMART AND DIGITAL**

[www.qlinkon.com](http://www.qlinkon.com)

# **INDIA'S** FIRST SMART ALL-IN-ONE **PLANT NURSERY** SOFTWARE WITH AI

Stop paying for multiple subscriptions. PlantIQ is an easy-to-use, AI-powered platform that lets you manage your entire nursery from a single mobile-friendly dashboard.

What sets PlantIQ apart is our smart QR Plant Guidance. Customers scan tags to instantly access plant care instructions, bridging the gap between your physical inventory and digital engagement.

Run your business effortlessly with built-in modules for GST/Non-GST POS billing, CRM, E-commerce, and Multi-branch Inventory. It includes an AI Assistant, complete HR tracking, and a smart OCR scanner to instantly digitize daily raw bills and customer business cards.

DIGITAL  
INDIA KI  
SMART NURSERY

LET'S DO  
SMART  
BUSINESS

# COMPREHENSIVE MODULES FOR EVERY NURSERY NEED

## SMART TALKING QR PLANT PROFILES

Let every plant explain itself, no staff needed on the floor.

## AI BUSINESS ASSISTANT

Your nursery business assistant available 24/7, just ask in plain language.

## MULTI-STORE & ROLE-BASED ACCESS

Run 2, 3 or more nursery branches from a single login with Saperate work

## DIGITAL CATALOG & E-COMMERCE

Sell plants, pots & fertilizers online without building a website.

## POS, INVOICE & DELIVERY CHALLAN

Bill in seconds from counter or anywhere across your nursery.

## HRM, TASK & ATTENDANCE MANAGE

Manage your nursery team without paperwork or WhatsApp chasing.

## CRM - CAPTURE & CONVERT EVERY LEAD

Never lose a customer inquiry from walk-in, exhibition or online.

## PROJECT & SERVICE SUBSCRIPTION TRACKER

Manage garden contracts and recurring service clients effortlessly.

## INVENTORY & STOCK MANAGEMENT

Inventory tracking, what's selling, and what's running low.

## REPORTS & BUSINESS INSIGHTS

Make smarter decisions with data - not guesswork.

# WHY CHOOSE PLANTIQ SOFTWARE?

## Smart QR Plant Guidance System

Solve the challenge of busy staff and uninformed buyers with our interactive QR fiber tags. Customers scan the tag to launch a beautifully designed digital profile where the plant "tells its own story" via a multi-language audio guide. Empower visitors to independently learn care instructions, check pricing, and add items directly to their digital inquiry cart—delivering expert sales guidance with zero extra manpower.

## Digital E-Commerce & Product Catalog

Provide a stunning, responsive web inquiry portal customized with your nursery's branding. Customers can seamlessly browse your green inventory and place orders easily using integrated payment gateways.

## Intelligent POS & Instant Billing

Keep your checkout counter moving during peak seasons with our lightning-fast Point of Sale system. Generate seamless GST and Non-GST invoices instantly, directly from your mobile device.

## Advanced OCR Document Scanner

Utilize our robust, built-in scan blade to instantly extract text from daily raw bills for easy digital archiving. You can also scan customer business cards to instantly capture and organize valuable exhibition leads.

## Real-Time Inventory & Expense Tracking

Maintain absolute control over your living stock. Monitor plant batch movements in real-time, get automated low-stock alerts, and track precise daily expenses to protect your profit margins.

## AI Business Assistant

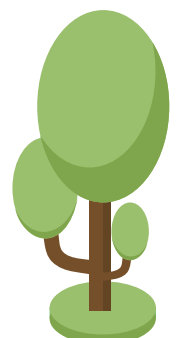

Let artificial intelligence streamline your daily workload. Our built-in AI assistant instantly answers routine business queries and automates repetitive operations to save you valuable time.

## Complete CRM & Lead Tracking

Manage your customer relationships intelligently. Track every retail buyer, bulk wholesale order, and client interaction seamlessly through every stage of your sales pipeline.

## Smart HR & Team Management

Centralize your workforce operations with dedicated employee panels. Effortlessly track staff attendance, assign daily nursery tasks, review daily work log submissions, and process payroll.

# WHY CHOOSE PLANTIQ SOFTWARE?

## Multi-Branch Nursery Control

Expanding your business has never been easier. Oversee inventory, staff performance, and sales data across all your retail locations or growing fields simultaneously from a single master dashboard.

## Project & Service Management

Perfect for nurseries that offer landscaping or maintenance services. Track ongoing work records, monitor milestone progress, and manage service payments effortlessly in one place.

**ALL IN  
ONE PLACE**

**SALES
